## Understanding the Criminal Justice Approach to Domestic Violence for Social Workers

### Course Abstract

The goal of this course is to provide the practicing social worker with additional knowledge and tools to provide appropriate resources and support to the victims and perpetrators of domestic violence by recognizing potential issues when working within the system of criminal justice. This course is appropriate for moderately experienced social workers. Social work practitioners unfamiliar with domestic violence concepts would improve their knowledge base with this training as well.

*"This program is Approved by the National Association of Social Workers (Approval # 886745725-5003) for 4 continuing education contact hours."*
